I live where the weather changes during the year.
It changes with each season.
We have four seasons.

3

We start with spring.
Then comes summer.
Then comes fall.
Then comes winter.

4

It is spring and the snow melts.
It gets warmer, and plants begin to grow.
The days get longer, and the nights get shorter.
I wear my jacket.

5

It is summer.
It gets hot, and the plants grow bigger.
The days are long, and the nights are short.
I wear my shorts.

9

It is fall.

It gets cooler, and the plants stop growing.

The days get shorter, and the nights get longer.

I wear my sweater.

7

It is winter.
It is cold, and many plants die.
The snow begins to fall, and the days are short.
I wear my coat.

8

The weather has changed with each season.
It got warmer and warmer.
The days got longer and longer.
Then it got cooler and cooler.
The days got shorter and shorter.

9

Next, I will see spring again.
The cycle will start all over.
